\$7990

WHY CHOOSE SOLARPAY?

- ✓ Yours to keep after 60 months, but you can choose to buy it outright sooner to save even more.
- ✓ It's not finance – no repayments, interest or fees ever. The system is paying for itself with the power it generates.
- ✓ Freedom to change energy providers whenever you want. If you find a better deal, there's nothing holding you back.

For more information and full upgrade options please visit

solarpay.com

BONUS OFFER By making your system bigger, you'll also receive an additional \$150 per year off the relevant buy outright price in your SolarPay agreement (up to a maximum of \$600 off after 4 years). It's only fair, because the system is producing more power. All other terms and conditions continue to apply.

A man with short brown hair and a goatee, wearing a white button-down shirt, stands with his arms crossed. He is smiling at the camera. In the background, there is a modern building with large windows and a white car parked to the right.

It's always best to install solar during construction, but the best time to buy it is up to you!

Mick Beasley

National Construction Manager
EnergyBuild

PROTECTING YOUR FAMILY

EnergyBuild is the only solar supplier that will install your inverter and ground DC isolator in a fire-proof enclosure. We also ensure all high voltage cabling is installed in a steel conduit to protect your family for many years to come.

THE BEST TIME TO INSTALL SOLAR IS DURING YOUR NEW BUILD

- ✓ It's better looking as your inverter is installed in an enclosure that can be integrated into the external wall.
- ✓ It's straightforward, with the freedom to run wires where they need to go without any knock-on costs.
- ✓ You get a real warranty, from a trustworthy company that has built a reputation for never compromising on quality.

EnergyBuild.

**We're trusted by
industry leaders for
new build solar.**

We install solar exclusively during construction, so we understand what's most important to builders on site. 8 of the top 20 homebuilders in Australia choose EnergyBuild for their solar installs.

DID YOU KNOW

**Your next family car is
probably an electric!**

We're helping Aussie families get ready for the future. There is a major push from all car manufacturers into electric vehicles, with hundreds of new plug-in models set to be released in the next 2 years. With a free EV charger included with your new home, we'll have you ready to roll.

Australia's new build solar specialists

We install solar and battery systems on thousands of new homes each year. That's because builders right around our great country trust us to deliver quality products time and time again. As our climate continues to change, we're doing our bit to help every Australian household prepare for the renewable energy future.

Terms and Conditions

*EnergyBuild SolarPay Solar Panels and Electric Vehicle Car Charger is applicable to all new requested tenders from 1 July 2021. MOJO Homes agrees to provide an upgraded metering smartbox to facilitate the integrated EnergyBuild SolaX inverter installed during construction. EnergyBuild (supplier) to install 6.6kW Solar System with Tier 1 Jinko Panels and 5kW SolaX Inverter should you choose to enter into a contract to allow the supplier to install the SolarPay solar system on your roof during construction. The supplier will own the solar output for the first 60months and you will have the option to buy the solar electricity produced at a discounted rate during this period. After 60 months you will own the solar system outright with the output and have access to all the benefits of solar energy for your own use and to sell back to the grid. You also have the option to purchase the system outright at any time. To access the discounted solar electricity, you must have an account with Origin Energy, who will offer a discount off its standard rates for all solar electricity used for the first 60 months. Customer is free to change electricity suppliers at any time. An Electric Vehicle (EV) Charger will be installed in your garage during construction by EnergyBuild. This offer only applies to new homes built by MOJO Homes in NSW on any applicable design that can accommodate the basic array of panels. Speak to your New Home Consultant to find out more.

Small-scale Technology Certificates (STCs): By accepting this solar offer, the customer directs MOJO Homes to assign the right to create STCs on the customers behalf to the supplier to claim for a period of up to 9 years deeming, commencing the date of installation. To complete this assignment, MOJO Homes will sign an STC Assignment Form on completion of the system install on your behalf that acknowledges the following: 1) There is no obligation to assign the STCs to the supplier. 2) The STC payment is to be repaid to the supplier should the assignment be invalid. 3) An agent of the Clean Energy Regulator or the supplier may wish to inspect the system within the first five years of certificate redemption. 4) Receipts and proof of installation date must be retained for the life of the STCs. 5) Penalties can be applied for providing misleading information under the Renewable Energy (Electricity) Act 2000.
